SITUATION SUMMARY

Hazardous Materials Spill: 15-0843, Alameda Marina, Alameda County

- On 02/10/15 at 2136 hours, the Harbor Master at the Alameda Marina in Alameda County called the California State Warning Center (CSWC) to advise that a strong smell of petroleum was present in the marina and the Oakland Estuary. SPILL: 15-0843 was issued.
- The CSWC made full notifications to the Department of Fish and Wildlife (DFW), California Department of Public Health (CDPH), State Lands Commission, the Regional Water Quality Control Board (RWQCB), US EPA, US Coast Guard (USCG), US Fish and Wildlife Service, San Francisco Bay Conservation and Development Commission (BCDC), East Bay Parks, surrounding Bay Area County Warning Points, Alameda County Environmental Health, and the Cal OES Executive, Fire, and Coastal Duty Officers. Cal OES Coastal Region Management and Cal OES Ports & Harbors have also been briefed.
- USCG Sector San Francisco advised that USCG Incident Management Division is in communication with the Alameda Marina Harbor Master.
- On 02/11/15 at 0840 hours, the Department of Fish and Wildlife Oil Spill Prevention and Response (OSPR) advises that two specialists are at scene and have launched a skiff. OSPR also advised that they are preparing to activate to the Oil Wildlife Care Network (OWCN). Additionally, they are looking at doing a fishery closure, but this information has not yet been confirmed.
- On 02/11/15 at 0909 hours the Cal OES Ports and Harbors ESC advised that the USCG Incident Management Division (IMD) had arrived at scene. Per the Cal OES Ports and Harbors ESC, OSPR advised that a DFW Warden is coordinating OSPR resources, and a Biologist is at scene as well as OSPR support personnel.
- USCG Sector San Francisco Incident Management Division and California Dept. of Fish and Wildlife OSPR are further investigating the source of the sheen and conducting SCAT. There are some pockets of what appears to be recoverable product as well as rainbow sheen in the marina. There have been reports of possibly two dead birds, but this hasn't been confirmed as of yet. USCG Air Station San Francisco is conducting an overflight to determine the extent of the sheen.
- The Cal OES Ports and Harbors ESC is in contact with the USCG and the CSWC is in contact with OSPR and will provide updates.

Train derails at Union Station in Downtown Los Angeles County

- Per Cal OES Fire Duty Officer (FDO), Cal OES Law Duty Officer (LDO) and Cal OES Southern Region Duty Officer (SDO), on 02/10/15 at approximately 1700 hours, a Metrolink train Number 906 of the 10th, derailed at Union Station in downtown Los Angeles. The train had a total of 4 cars with 2 cars derailed. There were no apparent injuries and no release of hazardous materials. Los Angeles Fire Department reported that firefighters systematically checked each train car and that one woman was taken off the train with the help of deputies.
- Approximately 100 passengers were on the train. Cause of the derailment is under investigation.
- There have been no requests for assistance and no unmet needs.

SITUATION SUMMARY

Round Fire, Inyo and Mono Counties

Per ICS-209, CAL FIRE, and Cal OES Duty Officers as of 02/11/15 at 0600 hours:

- Location: West of Highway 395 at the Sherwin Grade, SRA/FRA
- Acreage: 7,000 acres, 95% containment. Expected containment: 02/13/2015
- 40 residences, 3 minor structures destroyed, 5 residences damaged
- Law Enforcement Branch Assistant Chief demobilized on 02/10/15.

Proclamation

- A Proclamation from Mono County has been received proclaiming the existence of a local emergency due to drought, wind, fire, and storm; which began on 02/06/2015.
- On 02/11/15 at 0642 hours a revised Proclamation was received from Mono County requesting CDAA.

State Assistance Requests

- Communication between the Mono County Sheriff and IA staff is in progress.

Utilities

- Southern Californian Edison crews continue working to replace the destroyed power poles and restring downed power lines. The Operational Area (OA) has ensured all safety precautions have been taken for repopulating efforts.
- Electrical power has not been fully restored to the community of Paradise; the continued outage affects approximately 50 homes. An unidentified number of homes are still without power in Swall Meadows; current estimate for full restoration is 0800 on 02/11/15.
- The OA Environmental Health Officer issued a boil water notice; as the water delivery systems are being recharged there is a possibility of bacterial infiltration, the Environmental Health Department will be conducting tests.
- Per Cal EPA, as of 1145 hours on 02/10/15, two small systems in Swall Meadows (Lower Rock Creek and Wheeler, both mutual) are working on restoring water service, refilling their storage tanks, and then re-chlorinating. Only a well house was lost, but no damage to their storage tanks. The boil water notices are still in effect until they can get chlorine back in the system and take bacteriological samples, possibly on 02/11/15.

Recovery

- On 02/10/15, a representative from the Cal OES Recovery Section and a Cal OES ESC field representative, addressed the Mono County Board of Supervisors to explain funding sources that may be available.
- The county is requesting IA assistance; a meeting began at 0800 today in Mono County to discuss what IA assistance is needed and who will provide it. At this time, representatives from DMV, FTB and the Contractor's State Licensing Board will be present when the LAC becomes operational.

SITUATION SUMMARY

Van Dyke Fire, Mono County

Per ICS-209, CAL FIRE, and Cal OES Duty Officers as of [02/10/15 at 1658 hours](#):

- Location: Point Ranch, South of Bridgeport
- Unified Command with BLM, USFS, Bridgeport Fire
- 509 acres, [100% contained](#).

Inland Region - 2015 Statewide February Winter Storms

Lassen County

- Per Cal OES Telecommunications, microwave connectivity is no longer impaired through Black Mt. in southern Lassen County near Plumas County. The out of service (OOS) repeater site at Hough Mt. is causing the impact to communications via the microwave system for CESRS/CLERS/FIRE NET back to Sacramento. Users of the system will only be able to use the repeaters locally. Microwave Techs are conducting repairs.
- [Lassen County BoS proclaimed a Local Emergency. No anticipated requests. Waiting for proclamation.](#)

Missions

- **2015-IREOC-8532: Lassen:** Supplies are needed from a 50-bed field hospital to support the evacuation of a care home. Resource is located at High Desert Prison. [ACS shelter was picked up by High Desert State Prison. Mission closed.](#)

Plumas County

- A Proclamation from Plumas County has been received due to the 2015 February Winter Storms. [On 02/10/15 the BoS ratified the resolution.](#)
- Per Cal OES Telecommunications, CESRS/CLERS/FIRE NET are impacted at Hough Mountain and is on generator power. Technicians are on site to bring the link back up.

SITUATION SUMMARY

Coastal Region - 2015 Statewide February Winter Storms

Humboldt County

- At approximately 1125 hours on 02/09/15, a slide occurred at an easement at the Dogwood Life Station in Redway, Humboldt County. The slide caused a sewer main to become exposed which has the potential to release up to 400,000 gallons of sewage into the Eel River if the slide continues.
- Debris was cleared by a crew on 02/10/15.
- The CSD has hired an engineer to look at the slide and determine how to stabilize the pipeline.
- The CSD has been in contact with all concerned State and local agencies and plans to hire a contractor to stabilize the pipeline as soon as possible.
- Per the Cal OES Coastal Duty Officer, the city of Fortuna is currently on well water.
- There are no requests for additional resources from the County at this time.

Mendocino County

- On 02/11/15 at 0921 hours, California Utilities Emergency Association (CUEA) advised that PG&E has demobilized and closed their Emergency Operations Center (EOC), all customers impacted by the Ft. Bragg outage have been restored.

Weather of Concern

Southern California Santa Ana Wind Event

Santa Ana winds will begin early this morning and continue through Friday, with winds strong and gusty at times. Winds today will be strongest through and below the Cajon Pass and into the coastal foothills of the Santa Ana Mountains. Winds will become more widespread and likely the strongest overall on Thursday, especially for San Diego County and the San Geronio Pass area. Winds will then significantly weaken on Friday and end by early Saturday.

Potential Impacts:

- Hazardous driving conditions, especially for high profile vehicles along Interstates 8, 10, 15, and Highway 210
- Broken tree limbs, downed trees and power lines, and some structural damage may occur.

Active Weather Warnings, Watches and Advisories by County: http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

Proclamations

- San Mateo County 2014 December Storm Continuance received.
- Marin County 2014 December Storm Continuance received.

Cal EOC Incident – 2014 Drought

- Minute Orders received for El Dorado County.
- SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Dry conditions and clear to partly cloudy skies are expected for much of the next week as high pressure builds over the West Coast. Patchy valley fog will form each night and last into the morning hours.

Medford Weather:

This week, expect a mild and dry period across the forecast area. This will provide conditions favorable for storm clean-up with near seasonably cool nights across the valleys and areas of fog in the late night and early morning hours. Expect fog to be at it's maximum for the week Wednesday morning due to the recent precipitation, clear skies, and a building inversion.

Reno Weather:

High pressure will remain over the Sierra and Western Nevada through the weekend. This will result in dry and warm weather, with record highs possible toward the end of this week. Some cooling may occur next week as the ridge moves off the West Coast.

San Francisco Weather:

A significant warming trend remains on track for the second half of this week as high pressure builds over the eastern Pacific and California coast. Potential record breaking high temperatures will be possible through Saturday.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

A ridge of high pressure over the region will keep dry, warm conditions for northern interior California this week.

Hanford Weather:

High pressure will keep dry conditions across the region through the remainder of the week and into the weekend. There also will be areas of late night and morning fog, dense at times, in the San Joaquin Valley daily through the weekend.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Santa Ana winds will strengthen as surface high pressure builds into the Great Basin, then continue through the end of the week. Well above normal temperatures are expected through Saturday with record highs possible in some locations. Cooler weather should return for the second half of the weekend and early next week as high pressure and offshore flow weaken.

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

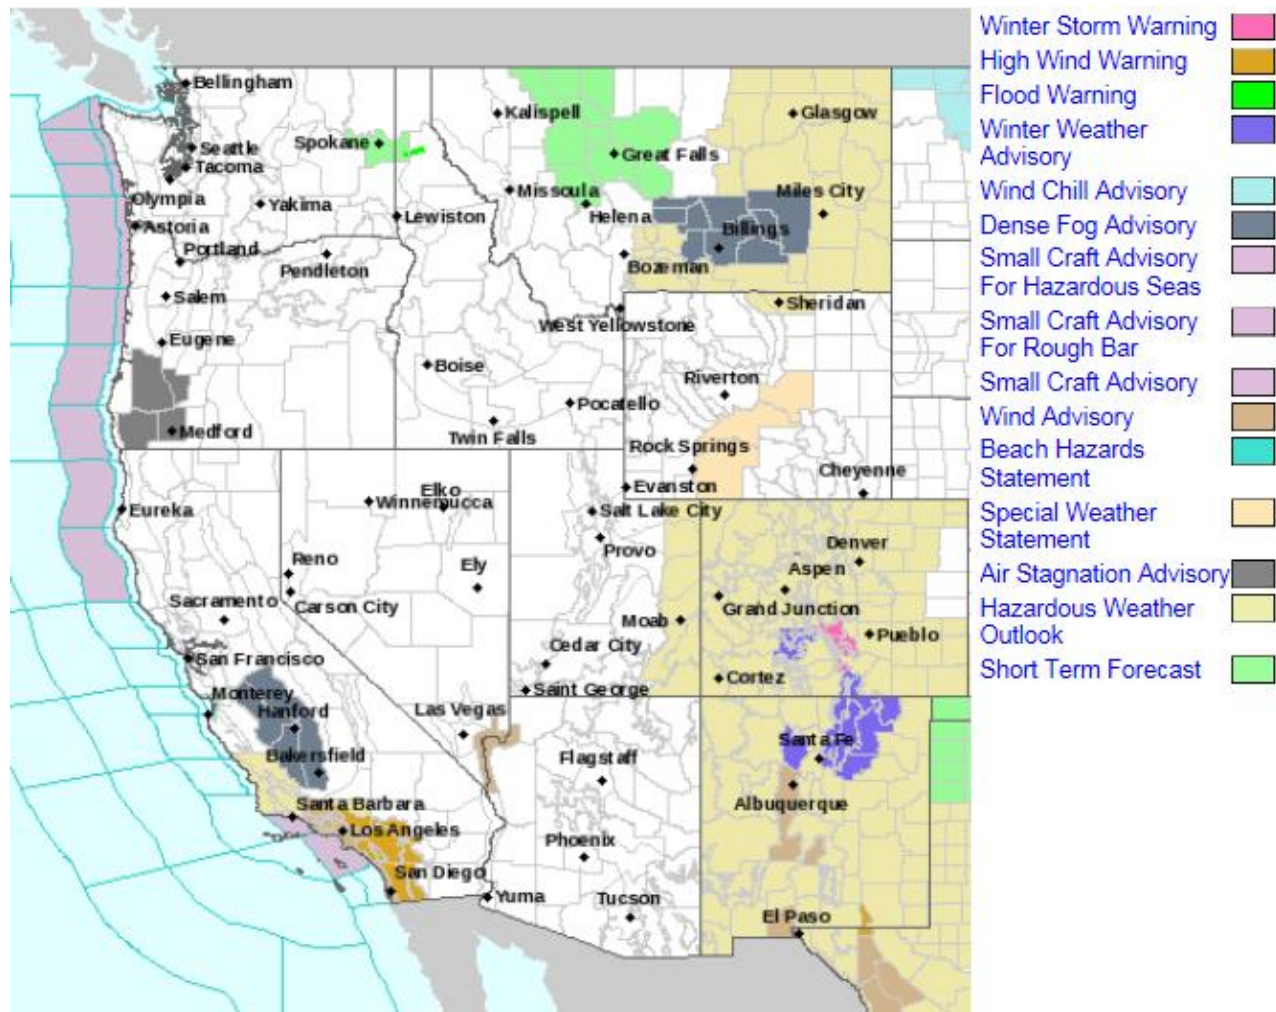

Surface high pressure building across the Great Basin and low pressure deepening over Baja California will bring a Santa Ana weather pattern to southern California through the end of the week. A strong upper level ridge will also develop and lead to very warm temperatures, about 10 to 20 degrees above normal west of the mountains. Gusty offshore winds are forecast through Friday with the strongest winds likely during the day Thursday, which could be strong enough to cause isolated reports of damage. Continued very warm on Saturday but with lighter winds. Cooler Sunday as an upper level trough moves across northern Mexico.

Southeast California Weather:

North to northeast winds will increase today especially across the Colorado River Valley in response to a storm system dropping south across Arizona. Wind will decrease tonight into tomorrow in response to the storm dropping further south. Otherwise expect dry and mild weather to continue across the area through Sunday. Cooler air will filter back in early next week.

RECOVERY ACTIVITIES

Magnitude 6.0 Earthquake, American Canyon, Napa County

- Cal OES and FEMA announced that the Major Disaster declaration for the South Napa earthquake will also include the Individuals and Households Program under the Stafford Act. This amendment makes assistance available to help homeowners and renters recover from the earthquake.
- As a result of President Obama's major disaster declaration, the U.S. Small Business Administration declared Napa and Solano counties, making residents and business owners eligible to apply for low-interest physical loss disaster loans. This declaration also made available low-interest Economic Injury Disaster Loans (EIDL) for businesses to apply in the primary counties of Napa and Solano, as well as the contiguous counties of Contra Costa, Lake, Sacramento, Sonoma, and Yolo.

Recovery Activities

Public Assistance

- RPA: 63 RPAs were received by Cal OES of which 5 withdrew resulting in 58 applications submitted to FEMA. There have been 10 withdrawals and one ineligible determination since, for a total of 47 FEMA approved open applications.
- Kickoff Meeting: There is 1 applicant remaining to be scheduled once through FEMA's review queue.
- Currently, 107 PWs are entered into the federal database system, 85 of which have been obligated.
- Exit Briefing: 19 applicants have had Exit briefings conducted.

Individual Assistance

- The FEMA and State VAL continue to work with nonprofit organizations in Napa and Solano Counties regarding Long Term Recovery efforts. The United Methodist Committee on Relief (UMCOR) is providing funds to hire initial case management staff for the Napa Earthquake Recovery Group (aka, eNERGy) and the Vallejo Earthquake Recovery Group (VERG). Both Long Term Recovery Groups are seeking funds from partner agencies to assist with unmet needs.
- Assistance Centers – The Local Assistance Center (LAC) in Napa transitioned to an SBA DLOC on Tuesday 12/30/14. The smaller operation maintains a presence by SBA staff. Hours of operation are 8 a.m. to 4:30 p.m., Monday through Friday.
-

RECOVERY ACTIVITIES

2014 Statewide December Winter Storms

On 12/22/14, Governor Brown proclaimed a State of Emergency in Marin, Mendocino, San Mateo, and Ventura Counties to allow Caltrans to formally request immediate assistance through FHWA's ER Program in order to obtain federal assistance for highway repairs or reconstruction for damages sustained as a result of the statewide storms impacting California. After assessing the damages, Caltrans is requesting the Governor update his proclamation to include Alameda, Contra Costa, Del Norte, Humboldt, Lake, Los Angeles, Monterey, Orange, San Francisco, Santa Clara, Shasta, Sonoma, Tehama, and Yolo Counties. Cal OES' Recovery Section conducted an assessment to verify the Counties of Lake, Marin, San Mateo, Sonoma, and Tehama's Public Assistance estimates for debris removal, emergency work, and permanent restoration of public facilities in order to determine potential eligibility for State funding.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued an Executive Order on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought. Specifically, through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate a biweekly state interagency conference call regarding drought community impacts.
- Regional (Inland, Coastal, Southern) conference calls will occur once a month beginning February 9, 2015.
- On 02/04/15, the U.S. Department of Agriculture (USDA) approved a Fast Track Drought Disaster Designation naming 55 of the 58 California Counties as primary counties and the remaining three (Del Norte, Imperial, San Francisco) as contiguous counties. This designation makes farm operators in all 58 California counties eligible to apply for USDA Farm Service Agency (FSA) emergency loan assistance. As a result of this designation, the U.S. Small Business Administration (SBA) declared and approved Economic Injury Disaster Loans (EIDL) for small, nonfarm businesses in the 58 counties. These loans offset economic losses because of reduced revenues caused by the drought. The application deadline for both the USDA and SBA loan programs is 10/05/15.
- On 02/04/15, USDA approved a Fast Track Drought Disaster Designation for certain counties in the State of Nevada also naming the California counties of Alpine, El Dorado, Inyo, Lassen, Modoc, Mono, Nevada, Placer, San Bernardino, and Sierra as contiguous counties. This designation makes farm operators in these 10 California counties eligible to apply for USDA FSA emergency loan assistance. As a result of this designation, the SBA declared and approved EIDLs for small, nonfarm businesses in the 10 California contiguous counties. These loans offset economic losses because of reduced revenues caused by the drought. The application deadline for both the USDA and SBA loan programs are 10/05/15.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
